

The results of a survey on road closures & motorcycle noise

Brussels, 4 October 2018

In several European countries (like Germany and the Netherlands) more and more roads are closed for motorcycles, *partly* due to complaints about excessive motorcycle noise.

With a short survey FEMA wanted to find out how motorcyclist think about this subject, so that our member organizations are aware of the sentiments of their individual members and/or online followers.

FEMA conducted an online survey from Tuesday 14 August until Monday 3 September 2018. The results of this survey have been presented to the FEMA Committee in preparation of a discussion on this subject at the FEMA Committee meeting on Saturday 29 September 2018.

For press enquiries, please contact a FEMA member organization in your country ([click here for their contact information](#)).

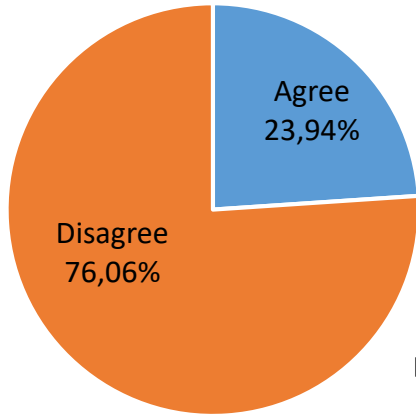

On the first four pages you will find the total results of the survey. Starting from page five you will find the results per country with a FEMA member organization.

In total we received 9,759 responses.

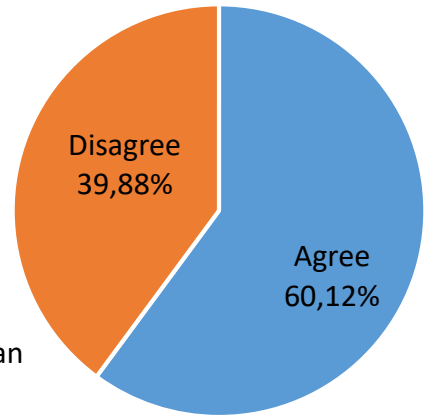

Age group of the respondents:

| | |
|----------------------|-----|
| - 16-30 years | 23% |
| - 31-45 years | 31% |
| - 46-60 years | 35% |
| - 61 years or higher | 11% |

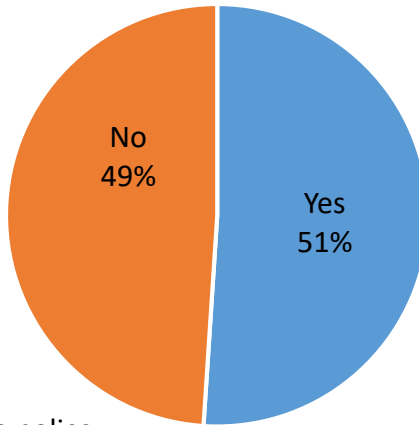

Statement: It makes sense that roads are closed for motorcyclists when excessive motorcycle noise leads to complaints.

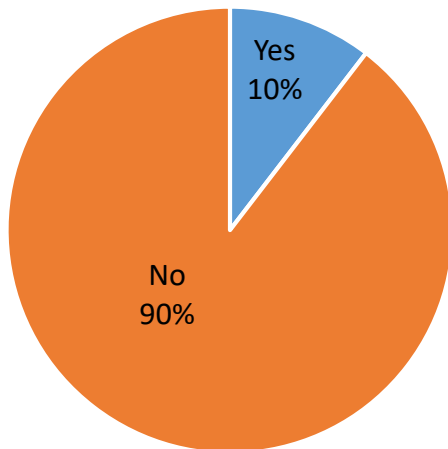

Statement: To prevent road closures for motorcyclists because of excessive motorcycle noise, the authorities should actively enforce noise laws and target motorcyclists that produce excessive noise.

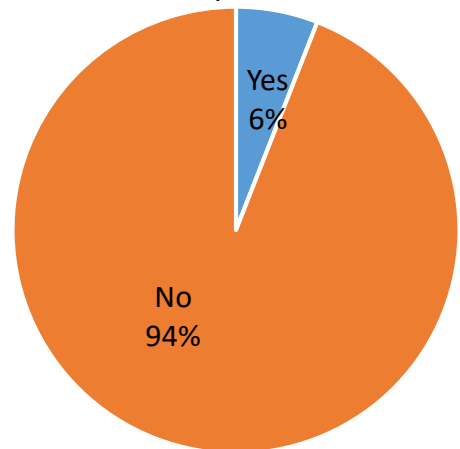

Do you agree with the slogan 'Loud pipes save lives'?

Have you ever been stopped by the police for a roadside test of your exhaust system?

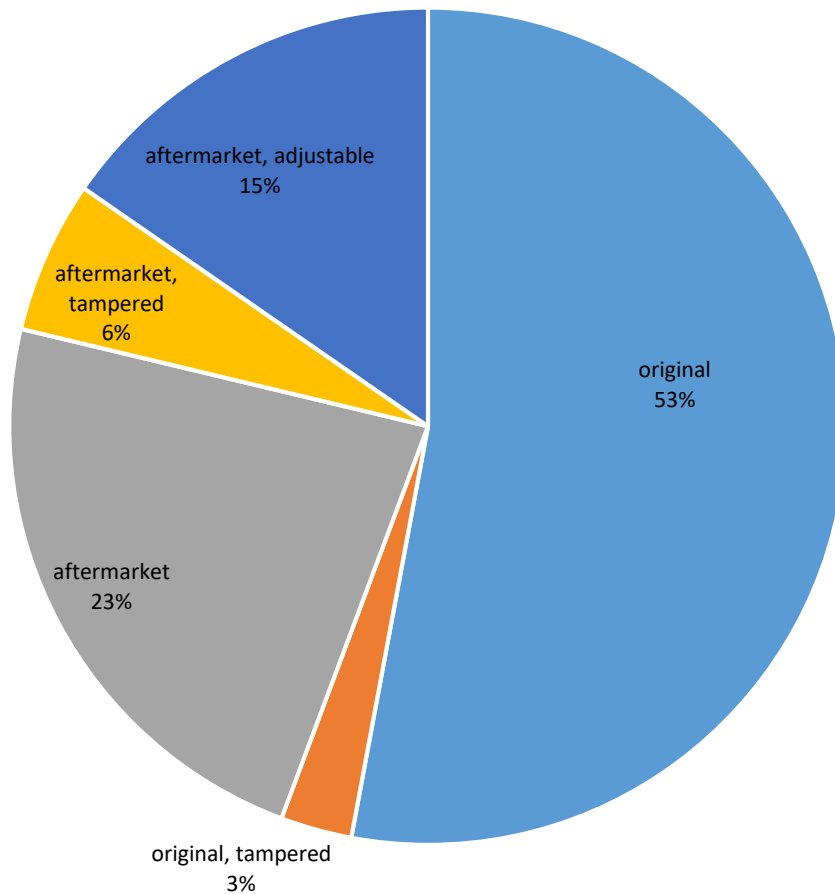

Have you ever been fined for excessive motorcycle noise?

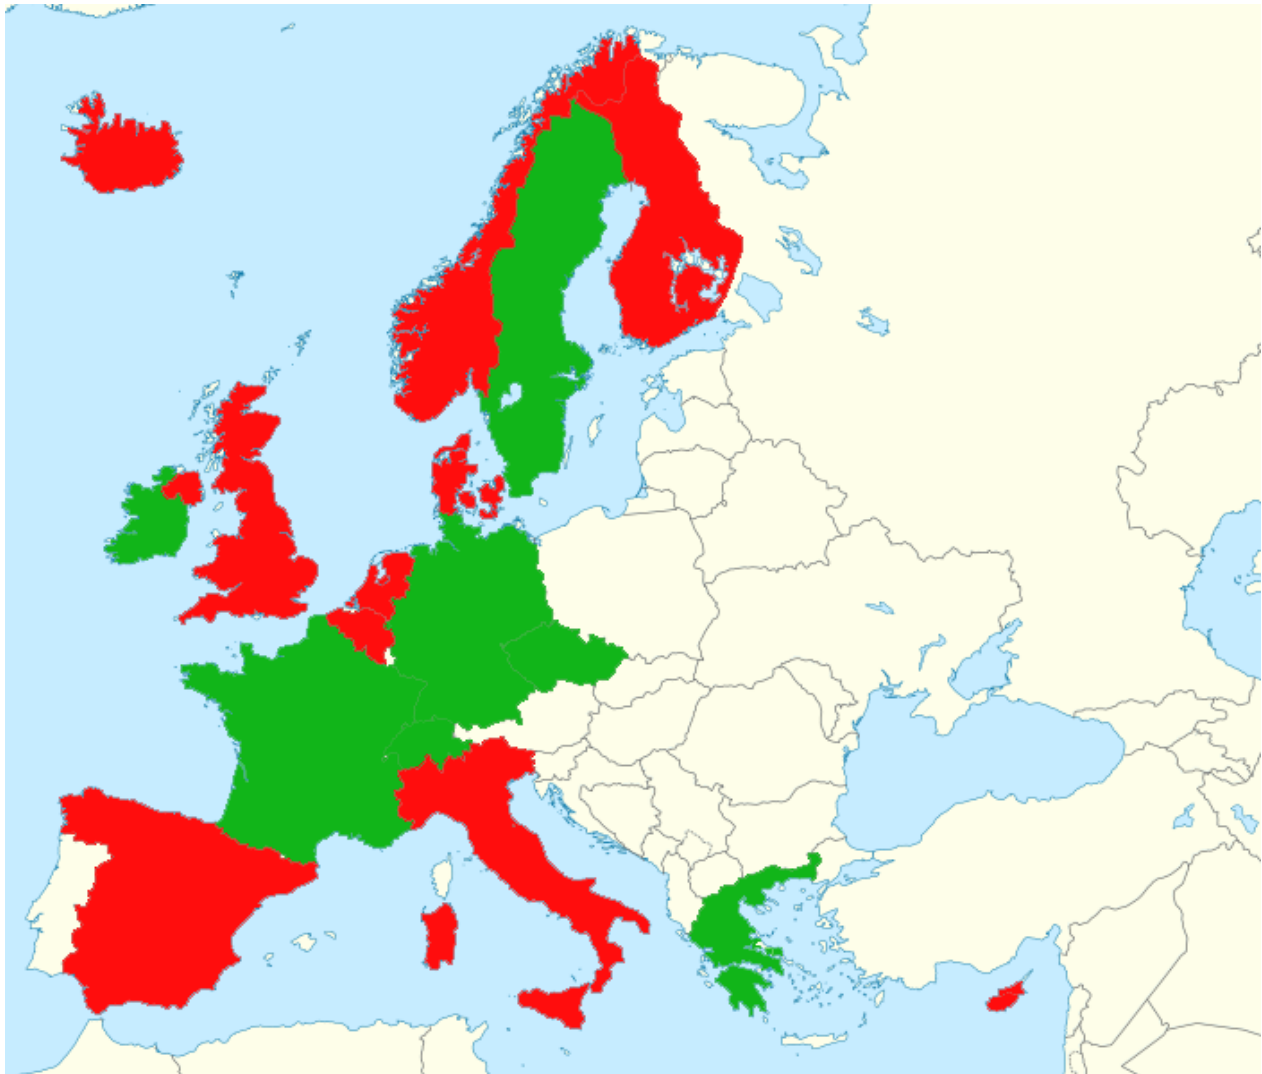

What sort of exhaust system does your (main) motorcycle have?

- 53% of the respondent use the original exhaust system
- 23% of the respondents use an aftermarket exhaust system
- 3% of the respondents use an original exhaust system that was tampered with to make it louder
- 6% of the respondents use an aftermarket exhaust system that was tampered with to make it louder
- 15% of the respondents use an aftermarket exhaust system that can be adjusted, for instance by a valve that can be opened or closed

| Loud pipes save lives (responses from FEMA countries) | Agree | Disagree |
|---|----------------------|----------------------|
| | Czech Republic (67%) | Spain (70%) |
| | Germany (61%) | United Kingdom (66%) |
| | Greece (58%) | Belgium (64%) |
| | Switzerland (58%) | Denmark (62%) |
| | France (57%) | Cyprus (57%) |
| | Ireland (57%) | Italy (56%) |
| | Sweden (54%) | Finland (55%) |
| | | Norway (55%) |
| | | Iceland (53%) |
| | | Netherlands (52%) |

Results for Belgium

Age group of the respondents:

| | |
|----------------------|--------|
| - 16-30 years | 13.95% |
| - 31-45 years | 32.05% |
| - 46-60 years | 43.62% |
| - 61 years or higher | 10.39% |

Statement: It makes sense that roads are closed for motorcyclists when excessive motorcycle noise leads to complaints.

- 26% of the respondents agree with that statement
- 74% of the respondents do not agree with that statement

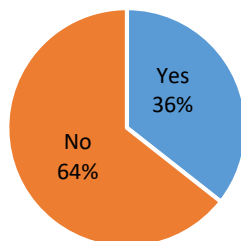

Statement: To prevent road closures for motorcyclists because of excessive motorcycle noise, the authorities should actively enforce noise laws and target motorcyclists that produce excessive noise.

- 74% of the respondents agree with that statement
- 26% of the respondents do not agree with that statement

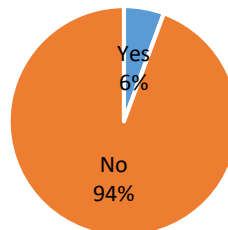

What sort of exhaust system does your (main) motorcycle have?

- 58.75% of the respondents have the original exhaust system
- 0.3% of the respondents have an original exhaust system that was tampered with to make it louder
- 27.3% of the respondents have an aftermarket exhaust system
- 1.78% of the respondents have an aftermarket exhaust system that was tampered with to make it louder
- 11.87% of the respondents have an aftermarket exhaust system that can be adjusted, for instance by a valve that can be opened or closed

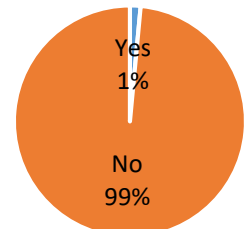

Do you agree with the slogan 'Loud pipes save lives'?

Have you ever been stopped by the police for a roadside test of your exhaust system?

Have you ever been fined for excessive motorcycle noise?

Results for Cyprus

Age group of the respondents:

| | |
|----------------------|--------|
| - 16-30 years | 14.29% |
| - 31-45 years | 57.14% |
| - 46-60 years | 28.57% |
| - 61 years or higher | 0% |

Statement: It makes sense that roads are closed for motorcyclists when excessive motorcycle noise leads to complaints.

- 29% of the respondents agree with that statement
- 71% of the respondents do not agree with that statement

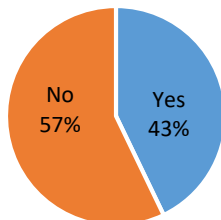

Statement: To prevent road closures for motorcyclists because of excessive motorcycle noise, the authorities should actively enforce noise laws and target motorcyclists that produce excessive noise.

- 71% of the respondents agree with that statement
- 29% of the respondents do not agree with that statement

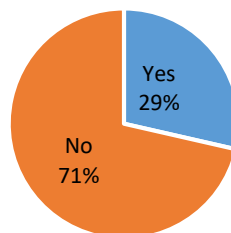

What sort of exhaust system does your (main) motorcycle have?

- 57.14% of the respondents have the original exhaust system
- 0% of the respondents have an original exhaust system that was tampered with to make it louder
- 28.57% of the respondents have an aftermarket exhaust system
- 14.29% of the respondents has an aftermarket exhaust system that was tampered with to make it louder
- 0% of the respondents have an aftermarket exhaust system that can be adjusted, for instance by a valve that can be opened or closed

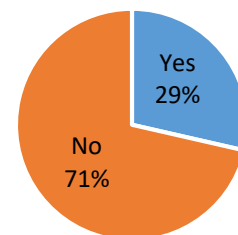

Do you agree with the slogan 'Loud pipes save lives'?

Have you ever been stopped by the police for a roadside test of your exhaust system?

Have you ever been fined for excessive motorcycle noise?

Results for the Czech Republic

Age group of the respondents:

| | |
|----------------------|--------|
| - 16-30 years | 8.33% |
| - 31-45 years | 58.33% |
| - 46-60 years | 25.00% |
| - 61 years or higher | 8.33% |

Statement: It makes sense that roads are closed for motorcyclists when excessive motorcycle noise leads to complaints.

- 17% of the respondents agree with that statement
- 83% of the respondents do not agree with that statement

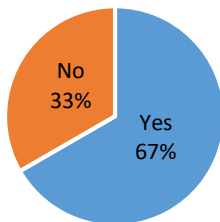

Statement: To prevent road closures for motorcyclists because of excessive motorcycle noise, the authorities should actively enforce noise laws and target motorcyclists that produce excessive noise.

- 75% of the respondents agree with that statement
- 25% of the respondents do not agree with that statement

What sort of exhaust system does your (main) motorcycle have?

- 58.33% of the respondents have the original exhaust system
- 0% of the respondents have an original exhaust system that was tampered with to make it louder
- 25% of the respondents have an aftermarket exhaust system
- 0% of the respondents have an aftermarket exhaust system that was tampered with to make it louder
- 16.67% of the respondents have an aftermarket exhaust system that can be adjusted, for instance by a valve that can be opened or closed
